Professional Summary

Senior Frontend Engineer with 7.5+ years of experience building scalable web and mobile applications using React, TypeScript, and modern JavaScript frameworks. Proven success in leading UI development at Eightfold.ai and impactful roles at Udaan, Myntra, and Paytm. Passionate about clean architecture, performance optimization, and building intuitive user experiences.

Skills

- React.js, React Native, TypeScript, JavaScript, NextJS, Node.js, Redux, HTML, CSS, SCSS

- Responsive UI Design, SPA Architecture, Accessibility

- Performance Optimization, Debugging, Design Patterns, Jest, Playwright

- GitHub Copilot, Cursor, Loveable, Figma, Cloudinary, Sentry

Professional Experience

Senior Software Engineer | Eightfold.ai (Remote) | Jul 2022 - Present

- Contributed to building Eightfold's new AI-powered ATS, leading key frontend features and architecture.

- Led frontend design reviews, ensured UI consistency, and converted major workflows into SPAs to improve performance.

- Built core modules like Position Overview, Pipeline Page V2 (Kanban view), and Skills Overview, boosting recruiter efficiency.

- Redesigned Events Management UI, improving usability while reusing logic for faster delivery.

- Implemented TypeScript and Sentry for better code quality and issue tracking.

- Created responsive email templates for improved engagement.

- Resolved 20+ critical issues in under 5 days and delivered urgent UI updates in collaboration with PMs.

- Mentored juniors and interns through code reviews and onboarding support.

Software Engineer | Udaan (Remote) | May 2020 - July 2022

- Major UI contributor in revamping workflows for an enterprise React Native app.

- Collaborated with backend teams to deprecate redundant APIs and optimise performance.

- Partnered with UX, product, and engineering teams to build scalable, user-friendly UI.

- Optimised existing UI designs and improved core FlatList performance.

- Built dynamic Image components with Cloudinary-based optimisations.

- Enhanced the internal UI library by adding reusable components.

- Reduced GPU overdraws to minimise unnecessary re-renders and boost app efficiency.

Consultant Frontend Developer | Compassites Softwares (Myntra, Paytm) | Aug 2018 - May 2020

- Worked on an Agile (Scrum) Development Team to deliver regular updates to the business team and project managers.
- Responsible for the style, look and feel of the web page with SASS that extends CSS with dynamic behaviour such as variables, mixins, operations and functions.
- Implemented various screens for the front end using React.js and used various predefined components from NPM and the Redux library.
- Monitoring and ensuring high-quality control of both designs and code for websites.
- Implemented flux pattern by using the Redux framework as a core dependency.
- Developed an entire support dashboard for the Customer Support team to resolve tickets for the Travel Category. The overall TAT was reduced to 80% after the launch.
- Used object-oriented programming concepts to develop UI components that could be reused across the Web Application.
- Optimised animation logic with optimistic functions to increase performance in rendering.
- Worked closely with the DevOps team in resolving infrastructure issues for the Customer Support Team Dashboard.
- Implemented the Duck Design Pattern in the existing Redux workflow.

Associate Software Developer | Xoxoday | Feb 2017 - Mar 2018

- Created a custom responsive web application to replace a legacy line-of-business web application using JavaScript, React and SCSS.
- Developed and designed SPA user interfaces in React.js.
- Used Grunt as a task runner to test the JavaScript with JSHint.
- Worked on Cross-Browser Compatibility and tested each & every web application on popular web browsers such as Internet Explorer, Firefox, Safari, Opera and Chrome.
- Used Media Queries to deal with different CSS-related issues on different devices.
- Worked on responsive email templates.

Frontend Developer Intern | Loyalty Key, Denmark | Mar 2016 - Aug 2016

- Developed websites with a wide array of scope, ensuring optimal utilisation of web standards and preparing scripts for the frontend.
- Managed all prototypes and developed HTML for various browsers maintaining CSS framework and identifying and resolving all issues on the same.
- Prepared front-end templates and provided web enhancements for all new products within specifications and designs.
- Coordinated with the team to develop innovative solutions to cater to a wide audience.

Education

- MCA - Manipal Institute of Technology, 2014-2016
- BCA - Mahatma Gandhi Memorial College, 2012-2014
